CENTRAL INTELLIGENCE AGENCY Directorate of Intelligence Imagery Analysis Service

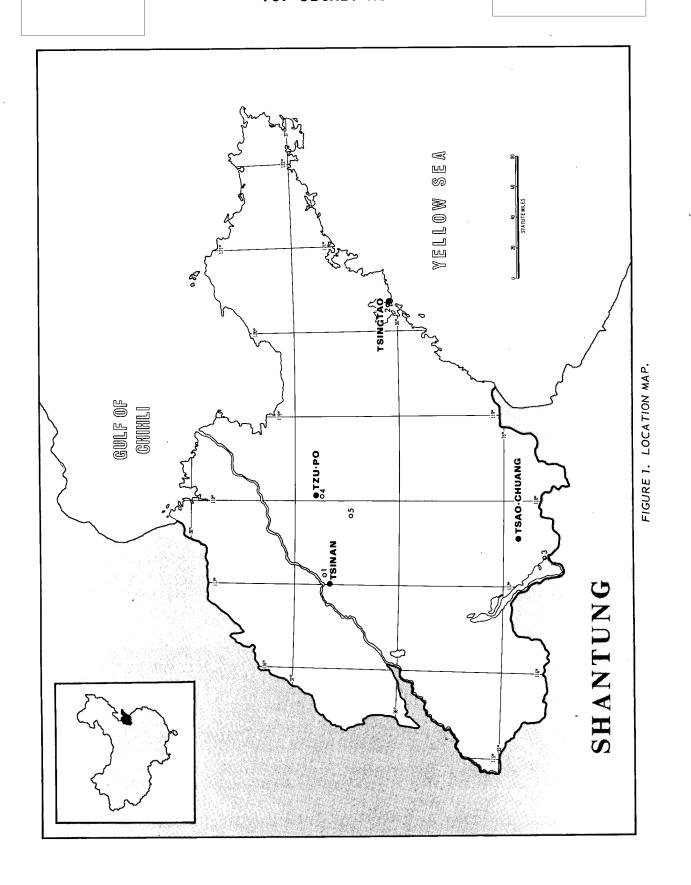

ABSTRACT

This report, based on 1969 photography, updates the previous Basic Imagery Interpretation Briefs on four of the five major thermal electric power plants in Shantung Province, northern China. The fifth plant, the Tzu-po Thermal Power Plant, was seen in October 1969, but the quality of the photography precluded analysis of it. No construction or dismantling has been observed at the other four plants since the previous reports. They all appeared to be operating on the latest 1969 photography.

The cutoff date for information in this report is December 1969.

INTRODUCTION

This report presents information on the current status of four of the five major thermal electric power plants in Shantung Province.

The following list of the major thermal electric power plants in Shantung Province is keyed to Figure I.

- I. Chi-nan (Tsinan) Thermal Power Plant Huang-tai
- 2. Ching-tao (Tsingtao) Thermal Power Plant Ssu-fang
- 3. Han-chuang Thermal Power Plant
- 4. Tzu-po Heat and Thermal Power Plant Nan-ting
- 5. Tzu-po Thermal Power Plant
